

eyecandylab
COOKIE POLICY

This Cookie Policy explains how eyecandylab Corp. (“**eyecandylab**”, “**we**”, “**us**” or “**our**”) uses cookies and similar technologies in connection with the augment.tv Platform and the SDK (collectively, the “**Service**”).

What are cookies?

Cookies are small data files that are placed on your computer or mobile device when you visit a website. Cookies serve different purposes, like helping us understand how a site is being used, letting you navigate between pages efficiently, remembering your preferences and generally improving your browsing experience.

Our Service may use both session cookies (which expire once you close your web browser) and persistent cookies (which stay on your computer or mobile device until you delete them).

We use two broad categories of cookies: (1) first party cookies, served directly by us to your computer or mobile device, which we use to recognize your computer or mobile device when it revisits our Service; and (2) third party cookies, which are served by service providers or business partners on our Service, and can be used by these parties to recognize your computer or mobile device when it visits other websites. Third party cookies can be used for a variety of purposes, including site analytics, advertising and social media features.

What types of cookies and similar tracking technologies does eyecandylab use on the Service?

On the Service, we use cookies and other tracking technologies in the following categories described in the table below.

Type	Description	Who serves the cookies (link to privacy policy/site)	How to control them
<i>Advertising</i>	These cookies are used by advertising companies to collect information about how you use our Service and other websites over time. These companies use this information to show you ads they believe will be relevant to you within our Service and elsewhere, and to measure how the ads perform.	Facebook Twitter LinkedIn	See 'your choices' below.
<i>Analytics</i>	These cookies help us understand how our Service is performing and being used. These cookies may work with web beacons included in emails we send to track which emails are opened and which links are clicked by recipients.	Google Analytics HubSpot	See 'your choices' below. Google Analytics uses its own cookies. You can find out more information about Google Analytics cookies here and about how Google protects your data here . You can prevent the use of Google Analytics relating to your use of our Service by downloading and installing a browser plugin available here .
<i>Essential</i>	These cookies are necessary to allow the technical operation of our Service (e.g., they enable you to move around on a website and to use its features).	Google Tag Manager	See 'your choices' below.
<i>Functionality/performance</i>	These cookies enhance the performance and functionality of our Service.	Intercom	See 'your choices' below.

OTHER TECHNOLOGIES

In addition to cookies, our Service may use other technologies, such as Flash technology and pixel tags to collect information automatically.

Browser Web Storage

We may use browser web storage (including via HTML5), also known as locally stored objects (“LSOs”), for similar purposes as cookies. Browser web storage enables the storage of a larger amount of data than cookies. Your web browser may provide functionality to clear your browser web storage.

Flash Technology

We may use Flash cookies (which are also known as Flash Local Shared Object (“Flash LSOs”)) on our Service to collect and store information about your use of our Service. Unlike other cookies, Flash cookies cannot be removed or rejected via your browser settings. If you do not want Flash LSOs stored on your computer or mobile device, you can adjust the settings of your Flash player to block Flash LSO storage using the tools contained in the Website Storage Settings Panel. You can also control Flash LSOs by going to the Global Storage Settings Panel and following the instructions. Please note that setting the Flash Player to restrict or limit acceptance of Flash LSOs may reduce or impede the functionality of some Flash applications, including, potentially, Flash applications used in connection with our Service.

Web Beacons

We may also use web beacons (which are also known as pixel tags and clear GIFs) on our Service and in our HTML formatted emails to track the actions of users on our Service and interactions with our emails. Unlike cookies, which are stored on the hard drive of your computer or mobile device by a website, pixel tags are embedded invisibly on webpages or within HTML formatted emails. Pixel tags are used to demonstrate that a webpage was accessed or that certain content was viewed, typically to measure the success of our marketing campaigns or engagement with our emails and to compile statistics about usage of the Service, so that we can manage our content more effectively.

Your choices

Most browsers let you remove or reject cookies. To do this, follow the instructions in your browser settings. Many browsers accept cookies by default until you change your settings. Please note that if you set your browser to disable cookies, the Service may not work properly.

For more information about cookies, including how to see what cookies have been set on your computer or mobile device and how to manage and delete them, visit www.allaboutcookies.org. If you do not accept our cookies, you may experience some inconvenience in your use of our Service. For example, we may not be able to recognize your computer or mobile device and you may need to log in every time you visit our Service.

Users may opt out of receiving targeted advertising on websites through members of the Network Advertising Initiative by clicking [here](#) or the Digital Advertising Alliance by clicking [here](#). European users may opt out of receiving targeted advertising on websites through members of the European Interactive Digital Advertising Alliance by clicking [here](#), selecting the user's country, and then clicking “Choices” (or similarly-titled link). Users of our mobile application may opt out of receiving targeted advertising in mobile apps through participating members of the Digital Advertising Alliance by installing the AppChoices mobile app, available [here](#), and selecting the user's choices. Please note that we also may work with companies that offer their own opt-out mechanisms and may not participate in the opt-out mechanisms that we linked above.

If you choose to opt-out of targeted advertisements, you will still see advertisements online but they may not be relevant to you. Even if you do choose to opt out, not all companies that serve online behavioral advertising are included in this list, and so you may still receive some cookies and tailored advertisements from companies that are not listed.

For more information about how we collect, use and share your information, see our [Privacy Policy](#).

Changes

Information about the cookies we use may be updated from time to time, so please check back on a regular basis for any changes.

Questions

If you have any questions about this Cookie Policy, please contact us by email at operations@eyecandylab.com.
